

Jeremy Stocker

SENIOR FRONTEND ENGINEER

I'm a highly creative, forward thinking professional and Javascript enthusiast who is passionate about developing enterprise applications using React, Typescript, Node & Azure. With my experience predominantly within the front-end engineering space, I also have a strong background in UI/UX design, Backend Engineering and DevOps.

5+ years React JS experience • Strong UI/UX design capabilities

Personal Projects

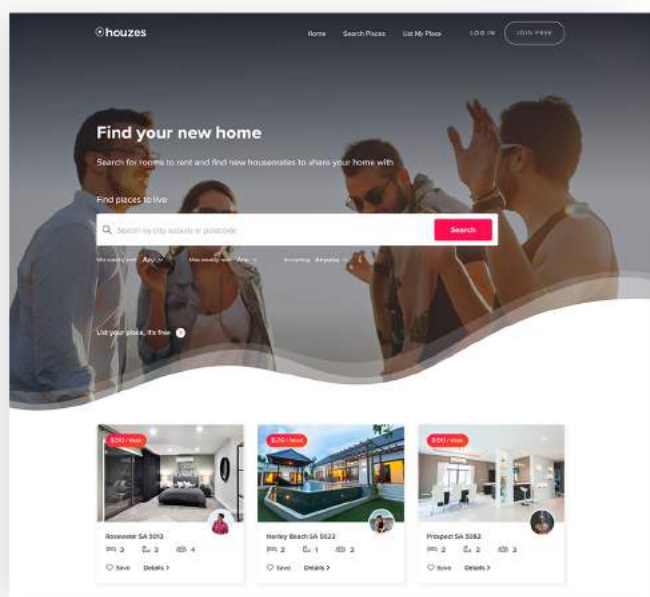

HOUZES AUSTRALIA

I have always been passionate about working on my own projects, as this is not just a career for me but also a strong passion. I believe personal projects go a long way to demonstrate skill and capability which is why I have included a greenfield project of mine. Houzes is a high performance web application used to list rooms for rent and find flatmates online.

Tech Stack & Features Include:

- React, Redux & Typescript
- Serverside Rendered with NextJS
- Azure DevOps for CI/CD
- Azure Function Apps (Typescript)
- Azure API Management
- CosmosDB, Keyvault, App Insights
- Custom Token Based Authentication

URL: www.houzes.com.au

Experience

8 + YEARS

Throughout my career I have been responsible for designing and implementing efficient, intuitive, modular and testable code within a variety of front-end codebases, while ensuring that solutions developed address a variety of concerns, including performance, scalability, availability, accessibility and security. With excellent communication skills both written and verbal, this has assisted in providing a comprehensive understanding of current and emerging technologies, whilst knowledge sharing with and mentoring other developers within the organisations I have operated in.
